

Sessions

GROUPS 2.0 PREVIEW

With a new Groups model comes a new Groups application for leaders and members of those groups to use. The WebLink Small Group Manager and Small Group Finder modules will be replaced by this new Groups application. Come experience what is available today and get a glimpse at the future.

REACH THE UNREACHABLE: AN INTRO TO THE FELLOWSHIP ONE API

Do you know what the term API means? Perfect! Whether you are a hard-core developer or can't program your VCR, this session will provide a high-level overview of the tools that allow you to leverage your Fellowship One data and build a better mousetrap. At the end of the day, you need someone who can build software to take advantage of this, but wouldn't you at least like to know what is possible?

PEOPLE MANAGEMENT

If you ever need to know more about someone in your congregation, attend this session. Join us as we dig into each widget on the household and individual views and learn to leverage them to make ministry happen.

EXCEL-ERATE REPORTING

The best tool for analyzing data gathered by your church and input into Fellowship One is Microsoft Excel. You will work with three powerful reports that can be exported to Excel and then manipulated using a pivot table to reveal hidden information about your church.

USING THE FELLOWSHIP ONE API

Programmers only: Join us as we dig deeper into how the Restful API works, how to use it and what it can do for you.

USING FELLOWSHIP ONE TO COMMUNCIATE

How do I communicate with my church using Fellowship One? This session will cover email, physical mail, establishing communication policies and how to leverage the powerful concept of temporary groups through all of it. Whether you are a seasoned pro looking for a few tips or a newbie, this session will deliver.

ACTIVITY REGISTRATION ONLINE

Come join us and learn how to create some incredibly cool and exciting event registration forms that can be used via your church website. This session will include creating a form, associating funds for payment, creating a participant assignment, auto reply email and inserting groovy graphics. When you leave you should be equipped to create WebLink Registration Forms that you can be proud of.

FELLOWSHIP ONE API CONSULTING

Programmers only: Get your hands dirty and find out which tools in the belt will help to advance ministry into the next generation with this round table interactive discussion and code swap. Come to share ideas, wants and visions.

KEEPING YOUR FINGER ON THE PULSE

Information is collected in Fellowship One from multiple sources. One key component to understanding the current health of your congregation is through the capture and review of notes in Fellowship One. This session will guide you through a best practice approach to prayer requests as well as giving some real-world examples of how your staff will benefit from the notes captured in Fellowship One. You will leave with a game plan as well as a documented process to dramatically improve the impact of Fellowship One on your church staff.

LEVERAGING FREE EDUCATION RESOURCES

Ever wonder where you can learn more about Fellowship One--like how it works and how other churches are using it? Do you ever wonder how to get new staff and volunteers up to speed quickly? Join us in this informative session detailing all the education resources available to you as well as quick ways to document how your church uses Fellowship One.

ADVANCED CHECK-IN

Many churches use Fellowship One Check-in and see it as a critical component that they can't live without. This session will take your understanding of Check-in to the next level. You will leave with a newfound knowledge in the following areas: Self Check-In training, using Check-In to register for events, themes, key tags and Super Check-In. If Check-in was a color TV, this event would upgrade you to a HD 5.1 surround system with a TiVo!

EFFECTIVE REPORTING

Are you ready to become a reporting ninja? This session will focus on an extremely powerful concept you can leverage to get that list of people you are really looking for.

FELLOWSHIP ONE CONSULTING

The final hour of our day has been set aside to answer any questions you may have about Fellowship One. We will walk you through the product, direct you to resources, explain product vision, and answer any questions you have to make sure you go home armed with information you need to improve your productivity.

REPORT CONSULTING

Whether you need clarity on how something works or need a specific report, come to this session to find the answer.
